

IN THE SPECIFICATION:

In the Final Office Action mailed February 18, 2009, the Examiner suggested to the Applicant that the subject matter of original claims 7-12, filed September 1, 2004, be made a part of the Specification. Counsel for the Applicant, affirmatively states that no new matter is being introduced into the disclosure of the invention by the proposed Substitute Specification being filed herewith, as the Applicant is literally copying the language of original claims 7-12 into the Specification, as the Examiner directed.
